SOLDIER'S BODY TO BE RETURNED HERE

Remains of Charles E. Garrison, Who Was Killed in Action, to be Buried in East Hill

BROTHER RECEIVES WORD

Dead Soldier Was 19 Years Old When He Made Supreme Sacrifice—Member of 150th F. A.

The remains of Charles E. Garrison, the second Rush county soldier victim to be returned from France to Rushville, will arrive here tonight or within a few days, according to word received by the deceased's brother, Oliver Garrison, who lives north of this city.

A few months ago the remains of Raymond Hamilton arrived here from France, where he had died of disease during the war. Garrison was killed in action along the battle line in France about three years ago.

The Rush county soldier was the son of Mr. and Mrs. Isaac Garrison, both of whom are now dead. The word that his body had arrived in Hoboken, N. J., was received earlier in the week by his brother, Oliver, the only near relative living here. Two other brothers also survive. They are Clay of Anderson and Walter, who is at present in service in the army.

The Rush county soldier was 19 years old when killed in action, and his serial number is given as 144497. The officials at Hoboken were immediately notified by the Rush county brother to ship the remains to Rushville, and it is expected that they will arrive within the next few days. The deceased was a member of the Rainbow division, and was a member of Battery E, 150th Field Artillery. Upon arrival of the remains here, he will be taken to a local undertaking establishment, and burial will be made in East Hill cemetery.

It was expected that the local post of the American Legion will assume charge of the body, and a military funeral will be held.

The remains of 1,608 American soldiers arrived at Hoboken last Sunday on the transport Somme from Antwerp. A dispatch today from Washington concerning the re-

TO MOVE TO ROOM IN MASONIC TEMPLE

Building Association No. 10 to Occupy Location Used by Princess Candy Shop

ANNUAL MEETING IS HELD

The annual meeting of the stockholders of Building Association No. 10 was held Thursday evening, and it was announced today that the association would move to the small room in the Masonic Temple, now occupied by the Princess Candy shop, soon after the first of April.

Walter Easley, manager of the Princess theater, who opened the candy shop several months ago in connection with the theatre, will close out his stock between now and the first of the month, since he has rented the room to the association. The building association, which was operated in connection with the Farmers Trust company because A. B. Irvin was its secretary has been looking for a location since Mr. Irvin's death. The business will continue to be conducted in the Farmers Trust company's room until it is moved to the Masonic Temple. Following the change in location, the association will resume the old practice of remaining open Saturday evenings for the benefit of its stockholders.

The stockholders elected H. S. Havens president; Thomas Geraghty vice-president; T. L. Heeb, secretary, and the Farmers Trust company, treasurer. The three officers, together with the following, compose the board of directors: Charles A. Frazee, Ambrose Gobring, Pat Gilligan, Lee Pyle, Ben Sparks and Joe Clark.

SALE OF TICKETS IS GOOD

Large Crowd Expected for Jess Pugh Entertainment Tonight

The ticket sale for the Jess Pugh entertainment, to be given at the Main Street Christian church tonight at 8:15 o'clock, was reported today to be good and a large attendance, such as the entertainment merits, is expected. Mr. Pugh has been appearing a number of places in this vicinity during the last few weeks, pending the opening of the chautauqua season.

He will be at Carthage on Monday evening, March 28, and preparations are being made there to handle a large crowd.

MARTINSVILLE PUT OUT OF RUNNING

Loses to Franklin, Former Champs, in Opening Game of State Tournament in Indianapolis

ROCHESTER WHIPS WALTON

Huntington Eliminates Syracuse in Third Game, 20 to 16—Martinsville Ties at 24 Points

State Tourney Scores

Franklin, 27; Martinsville, 24.
Rochester, 31; Walton, 12.
Huntington, 20; Syracuse, 16.
Lafayette (Jefferson), 29; Frankfort, 23.

(By United Press)

Indianapolis, Ind., March 18.—Franklin high school got a flying start in the state basketball championship tourney here today by defeating Martinsville, 27 to 24. Rochester defeated Walton, 31 to 12 and Huntington won a victory from Syracuse by a score of 20 to 16.

More than 7,000 people witnessed the morning game and a crowd equal to that or even more was on hand for the first game this afternoon. The coliseum at the state fair grounds was well filled.

The score at the end of the first half was 15 to 7 with Franklin leading. Martinsville made a last minute spurt just before the end of the first half and brought the score up from 2 to 7. The spurt continued throughout the last half and the score was a surprise to the basketball critics.

Vandever of Franklin won the game for his team in the last two minutes of play. With the score tied 24 to 24, Vandever found the basket for a field goal and a foul goal. Tudor of Martinsville made a series of sensational plays during the last half, scoring five field goals.

In the second game of the morning, Rochester gained a victory over Walton, 31 to 12. The game was one sided throughout, Rochester being in the lead from the start. The score at the end of the first half was 18 to 2, with Rochester in the lead. In the second half, the Rochester coach used substitutes and saved the strength of his first team men for more strenuous work.

Syracuse went down before Huntington by a 20 to 16 score. The game was close throughout. The score at the end of the first half was tied at 9 to 9, and it was only by the ability to win that Huntington came out on top. Duckamiller scored 22 points for Syracuse and the speedy work was about evenly divided among the Huntington aggregation.

The lineup and summary of the first game is as follows:

Martinsville (24) Franklin (27)
Paul -----F----- Gant
Nash -----F----- Friddle
Tudor -----C----- Vandiver
Knox -----G----- Ballard
Tudor -----C----- Ballard
Field goals—Vandiver 4; Friddle 3; Gant 3; Bordon 2; Paul 3; Smith 2; Tudor 5. Field goals—Vandiver 3; Tudor 4. Substitutions—Ross for Gant, Davis for Friddle; Gant for Ross; Friddle for Davis.

SYNOPSIS OF NEW LAWS IS RECEIVED

Brief Description of Statutes Referring to Fish and Game Sent to G. W. Coons

APPEAL FOR CO-OPERATION

State Department of Conservation Urges Fish and Game Associations to Help

George W. Coons of this city, president of the Rush County Fish Game and Bird protective association, has just received from George N. Mannfeld, superintendent of the division of fish and game of the state department of conservation, a copy of a synopsis of the new fish and game laws enacted by the last session of the legislature.

The synopsis was accompanied by an explanation showing how they will function to protect and perpetuate wild and aquatic life for future pleasure and recreation. These letters have been sent to the 110 associations in the state, which have a total membership of 30,000 members, and a direct appeal is made for individual co-operation with the state department for suppression of violations coming to the notice of the members.

The new laws are as follows:

(1) A closed season on large and small-mouth black bass and blue gills from April 30 to June 16. This act makes it unlawful to catch or to have in possession these fish during the period named. An emergency clause made the act effective from and after its passage.

(2) A law making it unlawful to harbor or possess ferrets without a permit from the Department of Conservation. The Conservation Commission has ruled that to hold a single ferret one must pay a fee of \$10, and parties holding more than one ferret must pay \$5 for each additional animal harbored. Permits will only be issued upon satisfactory evidence that the ferrets are to be used for lawful purposes. This regulation becomes effective on July 1.

(3) A law making it unlawful to set a trot line or set line in any inland lakes of the state or to use any bottle or other floating device in either lake or stream. Trot lines are limited in streams to one line for each person, said line to have not more than 50 hooks which must be smaller than one-half inch. Boundary waters are not included in this act. This law goes into effect as soon as declared in force by the Governor which will be when the laws are printed and circulated in the various counties.

(4) A law making it unlawful to fish through the ice in any of the

TO SUE FOR PART OF THE HAMON MILLIONS

Clara Smith Hamon, Acquitted of Murder Charge, to Seek Share of Dead Man's Fortune

OFFERS FOR A "CAREER"

(By United Press)

Ardmore, Okla., Mar. 18.—The tension of the southwest has been relieved today on the announcement of the freedom of Clara Smith Hamon.

Clara who has been the last week facing trial for the murder of the millionaire national committeeman, Jake Hamon, was acquitted by the jury late yesterday on the second ballot after a deliberation of forty minutes. Clara Smith Hamon will now plan to file a suit for possession of a part of the Hamon millions. Her attorneys are not ready to announce the exact nature of the suit or the sum which will be involved.

Clara has not definitely decided what she will do when she starts out on a new leaf of her life. She has had offers to go into the movies, write magazine stories and do many other things. Mrs. Jennie Sharples, an evangelist who has been with her all during the trial, is trying to persuade her to become an evangelist.

URGES NEW POLICY FOR POSTMASTERS

Postmaster General Points Out Desirability of Taking Part in Civic Activities

BULLETIN RECEIVED TODAY

Refers to Number of Things Regarding Service Which May be Emphasized to Advantage

That the policy of the postoffice department of the new administration will be decidedly different from that which has been in effect, is made manifest by the bulletins which are being received here from the new postmaster general, Will H. Hays.

The first bulletin points out to employees of the department that the postal business is one of service, which is conducted for neither profit nor political reasons.

The second bulletin, received today, urges upon all postmasters the necessity of participating in civic activities in their various communities, something which has been frowned upon by postmaster generals in the past. Mr. Hays also refers to a number of things regarding the service which should be emphasized, in the bulletin, which is as follows:

The attention of all postmasters is directed to the desirability of participating in civic activities in their respective communities. By taking an active interest in the meetings of local Chambers of Commerce, Boards of Trade, Commercial Clubs, and other civic and community organizations, excellent opportunities are afforded for the dissemination of general postal information essential to the proper conduct of an efficient postal service. Postmasters should avail themselves of such opportunities to solicit the co-operation of civic organizations in securing the observance by the general public of the fundamental principles of mailing, the compliance with which on the part of the postal patrons is necessary to the discharge of postal duties to the entire satisfaction of the public.

Postmasters should emphasize the importance of

Addressing mail to street and number;

That firm letter heads should bear their street address;

That mail should be deposited early and frequently during the day and not held until the close of business;

That return addresses on envelopes result in prompt return of letters if undeliverable;

That valuable mail matter should be registered;

That postal money orders should be used for remittances by mail in-

LEAGUE SUBJECT OF CABINET DISCUSSION

Question Also Before Senate Foreign Relations Committee But No Decision is Reached.

REVISION TOPIC UPPERMOST

Washington, Mar. 18.—President Harding has discussed with the senate foreign relations committee plans to revise the league of nations but no agreement as to the plan to be adopted has been reached, it was learned authoritatively today.

It was indicated that this question was discussed at today's cabinet meeting also. President Harding has received no definite information regarding the forthcoming visit of Rene Viviani, former French premier, but it is understood he has discussed with his advisers at considerable length the question of revision.

More than Article 10 will have to be eliminated from the league of nations' covenant before the Harding administration will consider making America a party to it. This statement was in reply to word from Parham that Rene Viviani, former French premier, soon to come to America, will as recently forecasted by the United Press, be prepared to ask that America become a member of the league, if the objected Article 10 is eliminated.

REVISE TAX LAWS FIRST

President Harding's Stand May Cause Break in G. O. P. Ranks

(By United Press)

Washington, Mar. 18.—President Harding's view that the tax legislation should precede the tariff revision has been communicated in semi-official advices to leaders in congress. It was indicated today that Harding stands firm for this course. His stand threatens a serious break in the republican ranks. West republicans are determined that the revision of the tariff should come first.

Both Senator Penrose, Pa., chairman of the finance committee, and Representative Fordney, head of the house ways and means committee, have informed Harding that the majority of the republicans do not approve of this view.

LOVETT MURDER TO BE INVESTIGATED

Kosciusko County Grand Jury Will be Called, With Virgil Decker Central Figure

IN SOLITARY CONFINEMENT

Is Allowed to Rest Pending Time When he Will be Called to Repeat His Story

(By United Press.)

Warsaw, Ind., Mar. 18.—Virgil Decker, 18, was solitarily confined here today at the county jail awaiting grand jury investigation of the murder of Leroy Lovett, his 19-year-old chum.

Judge Royse was preparing to call a special session of the grand jury to take up the charge of first degree murder against Decker in connection with the killing of Lovett.

The call went out today for the convening of the grand jury next Monday. The grand jury's investigation will take the same course as that of the county officials—that in view of the striking resemblance of the two youths, Leroy was murdered in order to collect the \$24,000 insurance carried by Virgil Decker. All other work of the court will be laid aside in order to spend all the time in investigating the murder case. The boy was permitted to rest today so that he could tell the story told to the authorities, many of which were conflicting. Sheriff Moon and a railroad insurance detective questioned Virgil until ten o'clock last night, but he continued to declare his innocence.

The evidence that Sheriff Moon will submit to the grand jury will reveal that, in carrying out his scheme to defraud, Decker put his clothing on the body of Lovett, placed letters addressed to himself and his handkerchiefs in the pockets, put one of his shoes on one of Lovett's feet and, as an identifying mark, had Lovett's right arm tattooed four weeks before the murder with the hope that there were persons who would assert that the missing Decker had the same kind of a tattoo mark on his arm.

Several months ago Virgil Decker formed the acquaintance of Lovett. They became chums, and made frequent trips out of Elkhart together, and, on more than one occasion, Lovett visited this vicinity with Decker. They visited an Elkhart photographer together. They went to motion picture shows together, and they visited young women together. Lovett knew that Decker had his life heavily insured, for the latter frequently displayed the policies. It might be, authorities believe, that they conspired together, but that is mere theory, because Lovett is dead and Decker will not talk. But Lovett never suspected that he was to be the victim of the fraud.

On Thursday of last week Decker went from Atwood to Elkhart by way of Warsaw. He saw Lovett on that visit and returned home the same evening. The following day he again visited Elkhart, and about 6 o'clock that evening he rented an automobile at an Elkhart garage, giving his name as Carl Benson, 813 Pearl street. He gave the garage

BOND OPINION TO BE ISSUED SOON

County Attorney Informed Ruling on Authority of County Council is Being Prepared

A REQUEST HAD BEEN MADE

Council, Here Today to Consider Paving Bonds, Adjourns Until April 1 Pending Decision

The Rush county council, called in session today to take up the remonstrance against issuing bonds to pave Harrison street from the south end to Eighth street and Eighth street from Harrison to the Fort Wayne road, adjourned until April 1 without taking any action, pending an opinion from Attorney General Lesh regarding their authority in passing on bond issues.

The same action was taken Wednesday when the council was in special session for a similar purpose, the remonstrance to be heard then being against a proposed bond issue to erect a consolidated school building in Richland township.

T. M. Green, county attorney, while in Indianapolis Thursday, called on attorney general and found that an opinion in regard to jurisdiction over bond issues was being prepared in his office and will probably be issued in a few days. It will at least be ready by April 1 and the councilmen will know by that date whether it will be necessary for them to meet again.

Mr. Green said that the attorney general was not compelled to render an opinion on any state law unless a request had come from some state official. Mr. Green inquired to see whether a request had been made for a ruling on the question of authority over local bond issues and found that some state official had made such a request. In case none had been made, Mr. Green intended to see that the matter was called to the attention of the attorney general by some state officer so that it could be settled here.

Mr. Green was informed that the same question had arisen elsewhere in the state by reason of remonstrators having resorted to the "home rule" law, passed by the special session of the legislature last summer, which provided that where a given number of citizens of any taxing unit objected to a bond

PRE-EASTER SERVICES AT CHRISTIAN CHURCH

Special Meetings all Next Week, at Which Pastor Will Deliver The Sermons

TO CLOSE ON EASTER SUNDAY

The Main Street Christian church will hold pre-Easter services all next week, with the opening services on Sunday. The nightly sermons will be preached by the pastor, the Rev. L. E. Brown, and the sermon will be preceded each night by a half hour song service, in which a large choir will have part. The music will be directed by Homer W. Cole.

The services Sunday will be on the following topics: morning, "Doubt and Defeat"; and evening, "Safety First". The week day meetings will begin at 7:30, and the subject for Monday night will be, "The Lord and the Lost"; Tuesday, "Working on the Walls"; Wednesday, "The Trinity of Errors"; Thursday, "The Lord's Ladder"; Friday, "The Great Omission".

There will be no services on Saturday night, and the services will close on Easter Sunday with two sermons by the pastor. The morning topic will be, "The Resurrection Life" and the night sermon will be "Day of Decision".

So far as is known this is the only Rushville church which will have pre-Easter services, and all church-going people are invited to attend.

Do you know the facts about building costs?

Do you know that lumber and building materials are down? Have you talked to us lately about building? Do you know how reasonably you can make needed repairs, build your new home, or remodel your old one? Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks, and were forced to turn them over at almost cost.

We can show you a substantial saving on every item in our line.

But it's only fair to tell you this condition may be only temporary. The country is short more than a million homes. Our own city is short many homes. When people begin to do this long delayed building, demand will increase rapidly, creating another shortage of materials, and prices will advance again.

If you are planning to build, remodel, or repair, come in and let us give you figures. Then when we show you the actual savings over last year's prices and show you how favorably present costs compare with those of 1914, make your own decision.

GRAIN GROWERS TO CONFER AT CHICAGO

To Consider The American Farm Bureau Federation's Co-operative Grain Marketing Plan

BUREAU MEMBERS INVITED

Chicago, Mar. 18—Representatives of the principal grain growing states will meet here April 6 to consider the American Farm Bureau Federation's co-operative grain marketing plan.

State meetings will select delegates to the Chicago gathering. Farm bureau members will be invited to attend.

The "improved grain marketing plan" creates a "national sales agency" controlled by the membership. The agency will control terminals, warehouses, export, finances and service departments and is organized on a non-stock, non-profit basis. Its purpose is to shorten the road from consumer to producer and eliminates charges the farmer believes excessive.

10 ACRES ADDED TO CAMPUS

Purchase of Land First Step Towards Enlarging Franklin

Franklin Ind., Mar. 18—The plan of Indiana Baptists to make Franklin College, the Baptist institution, one of the largest schools in the state received a boost this week when ten acres of residence property adjoining the college campus was registered at the county recorder's office in the name of the school. The land was purchased at a total price of \$42,503. The filing of the deed marks the first step toward the realization of the college dream of an extensive campus and several new buildings within the next few years. With practically all the added land needed for the present growth of the school, energies of the heads of the college for the next few years will be expended in raising money for new buildings. A science hall will be constructed on the newly-purchased land as soon as the price of building material descends.

waters of the state by use of a shanty or house which obstructs a full view of such fishing. Fishing through the ice is also restricted to the use of two holes not larger than 24 feet in diameter, and to the use of one line in each hole, said line to have but one hook thereon. The new act does not repeal or effect any state laws now prohibiting ice fishing in Bass Lake. This act becomes effective when promulgated by the Governor.

(5) A change in the trapping laws setting uniform opening and closing dates on all fur-bearing animals, starting on November 10 and closing on February 10. The act protects beaver and otter perpetually, and makes it possible for the Department of Conservation to confiscate and dispose of hides and fur unlawfully taken. A section makes it unlawful to take or capture any fur-bearing animal by smoking or digging it out of its den or hole, or by the use of fumes or chemicals. Effective when published by the Governor.

Mr. Mannfeld calls attention that in a short time new digest booklets giving the complete laws of the state protecting fish, game, birds and fur-bearing animals for the years 1921-22, will be printed and distributed by the department. He points out that in all 13 fish and game bills were introduced in the legislature by the department in conjunction with the Indiana Fish, Game and Forest League. Some independent bills dealt with a perpetual closed season on quail but failed to pass.

These features and others which may occur to postmasters as being applicable in their particular community can be discussed with distinct advantage to the postal establishment and resulting benefit to its patrons. Furthermore, postmasters should urge constructive criticism and invite legitimate complaints of inadequate service, losses, or irregularities, and all these matters should be given prompt personal attention. Along these lines the Postmaster General earnestly invites the co-operation and help of postmasters and postal employees generally.

* TICKLE 'EM TO DEATH *

Washington, Mar. 17—Several canny little pests can be "tickled to death," department of agriculture experts have found.

Certain enemies of cabbage, peas, onions and melons that have learned to come in out of the rain of poison sprays will sneeze themselves to death over a specially prepared snuff, the entomologists say.

The "snuff" is nicotine sulphate mixed with kaolin to make 40 per cent nicotine. It floats about under the leaves, tickling the mites so irresistibly that they fall off.

MARS TOO AFFECTIONATE

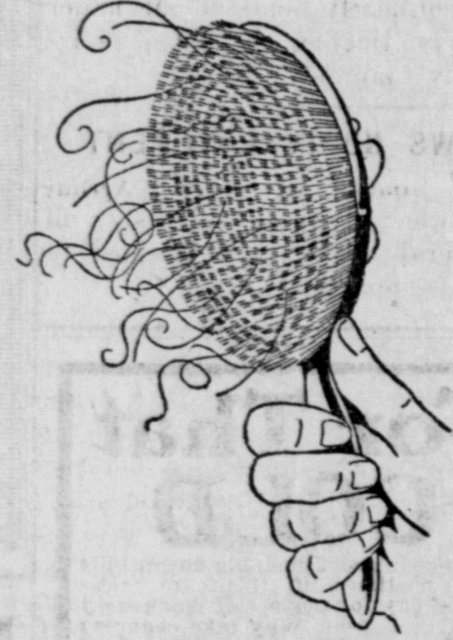

London, (By Mail to U. P.)

—It's all wrong to assign only war-like attributes to Mars, say British astronomers. That planet is far too affectionate for little Phobos, the 3-mile in diameter Martian moon.

They calculate mathematically that Phobos cannot continue to resist the tremendous tidal strain which Mars is exerting upon it. Some savants predict that it will fall to pieces and the fragments either plunge down upon the surface of Mars from their 6,000 mile height, or continue to revolve around the planet in separate orbits.

K.O.F.C. TEAM WINS THE ODD CONTEST

The K. of P. Five is Defeated in the Third Game of Season at Modern Appliance

CURTAIN RAISER OVERTIME

The K. of C. team won a decisive victory over the K. of P. team last night on the Modern Appliance floor, the final count being 27 to 16. A large crowd of fans turned out to root for their two teams, but the K. of C. team had the best of the game from the start. These two lodge teams have played three games this season, the K. of P. team winning the first contest in an easy manner, and dropping the other two by good margin.

The team from the St. Mary's school also won out over the Webb school team, in a preliminary game, the score being 12 to 8. An unusual thing happened in this game as the score tied at 8 points when the game ended and two extra sessions of 3 minutes each were required to decide the game.

BONDS OPINION TO BE ISSUED SOON

Continued from Page One

Issue, the county council should have final authority in determining whether the proposed bonds should be issued.

Previous to the passing of the "home rule" law, there had been considerable objection to that feature of the state tax law which provided that every local bond issue, even to one in the smallest taxing unit, should have the sanction of the state board of tax commissioners.

It just was learned here last Tuesday, the day before the county council was to meet and pass on the Richland township school bonds, that an amendment to the state tax law had been passed by the regular session of the general assembly this year, restoring jurisdiction over bond issues to the state tax board.

It is the opinion of attorneys here that the attorney general will rule that the state board now has the authority to determine whether or not bonds shall be issued for any public improvement, regardless of when the action was started. Some persons at first contended that the county council could go ahead with its proceedings since they were started before the law was changed.

Persons familiar with the situation lean to the belief that the bond issue would have a better chance of being passed by the county council than by the state tax board. Some professed to believe that the council would have approved both issues. On the other hand, the policy of the state tax commissioners, when they had the authority, was very conservative because they endeavored to keep tax rates low. It is pointed out, however, that the personnel of the board has changed and that the board's policy may be different.

The county councilmen will undoubtedly be paid at the rate of \$5 a day for the two special sessions they have held, which is in accordance with the terms of the "home rule" bill, because, even though the law has since been invalidated they were called into session under the provisions of that law. They will appropriate the money at some future meeting when called to make appropriations.

Indianapolis Furniture Dealer Gains 25 Pounds by Taking Tanlac —Health Restored

"Besides getting me up out of bed Tanlac has built me up thirty-five pounds in weight, and I now feel as well as I had never been sick a day in my life," was the truly remarkable statement made the other day by Otto Marcum, of 434 E. Market St., Indianapolis, Ind., well-known furniture dealer at 1602 Roosevelt, St.

"I was down in bed flat of my back, and had been there for six weeks before I got hold of Tanlac. I suffered for over five years with a bad case of stomach trouble, and it had completely gotten the upper hand of me. I lived on milk toast cereals and the like hoping that this diet would help me, but I kept getting worse all the time. I had such awful cramps and pains after eating that many times I thought I would die, and I got to where I just dreaded to eat anything. My kidneys worried me a lot, and the way my back hurt me was almost unbearable. I almost despaired of ever getting any better, and I thought I was going to have to sell out my business, as I was unable to look after it at all.

"One day a friend dropped by to see me and told me how wonderful Tanlac had fixed him up, so I started taking the medicine myself. Well, sir, I just began improving rapidly and six bottles have made me a new man. I have never been in better health in my life than I am now, and I'm back at the store every day now looking after my business with my same old-time energy. Tanlac is certainly a wonderful medicine."

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, in Carthage by Otto C. McCarty, and in New Salem by Mrs. Jos. Hankins, R. R. 2.—(Advertisement)

Whistling Kids

Have you ever noticed a small boy go whistling down the street? He was happy.

Some day, though, he may not be so happy. He may be president of the United States instead.

It's too bad we can't carry our exuberance of happiness through life and into the grave, instead of leaving it at the threshold of manhood, as most of us do.

When we reach the manhood's estate we plunge into the business of piling up money, and the pile is never satisfactory until it is larger than our needs require. Even then we yearn for more.

Some people never really enjoy their money because they never stop accumulating it long enough to take a rest. They forget the days when they were whistling kids and joy was their portion in life.

Finally they die and leave their money for their relatives to scrap over and squander.

Perhaps they find in the hereafter the happiness they denied themselves in this life. But we doubt it. Even if they squeeze into heaven they won't remember how to whistle.

Whistling kids who discard their happiness in their prime will become morose in old age.

You can change a leopard's spots by daubing on a little paint. But in time the paint will wear off and the spots will still be there.

So it is with man. He can money-grub through the years of his prime and in the winter of life he can fool the people by assuming happiness he does not feel. But under the surface the canker still works. It will never heal.

Encourage your boy to whistle. Induce him to whistle a stirring tune every day of his life.

Then he will carry his whistling to the grave, and the harps of the angels will be in harmony with his soul.

Camouflaged Propaganda

According to the New York Times "A new German propaganda drive is getting under way in this country". This is quite likely true although the propaganda that may be undertaken by a hamstrung and shackled Germany is not likely to be very extensive or effective. But the German propaganda is by no means the only movement of the sort underway in the United States. There are many

indications that foreign interests are guiding various propaganda enterprises for the advantage of foreign governments and peoples, and with very slight, if any, regard for the welfare and interests of the United States.

The truth is that there is so much evidence in some American newspaper offices of friendly interest for the welfare of other nations that one can hardly be blamed for raising a question as to the sort of influence which aroused aid here for other nations. So long as the propaganda is conducted openly and with its purpose and extent clearly avowed, there can be little criticism. The United States conducted propaganda in Great Britain during the Civil War; at which time Henry Ward Beecher delivered addresses in England in behalf of the Northern cause. All his work was conducted openly and personally, however, and not through the secret connivance of others. The difficulty with much of the propaganda in the United States at the present time is that it bears too much evidence of clever camouflage, with the real purpose carefully concealed.

Some people are inclined to be very critical of our public officials, but it doesn't always produce the best results. Men are men the world over, and they are inclined to exhibit a stubborn streak when some other fellow takes it into his head to administer a kick. A quiet talk face to face is readily understood by both parties, and if there any differences of opinion there is an opportunity to come to an amicable understanding. When we see anything in this town that isn't just as it should be it is our right as citizens to point it out to our officials, but the officials have an equal right to expect that we will talk to them instead of about them. It is the better way.

Ex-President Wilson, in his veto of the emergency tariff bill, declared that the time had passed when the United States has anything to fear from foreign competition, "especially in view of the stricken condition of other countries." This statement was made in the face of the fact that imports for 1920 were three times what they were, in point of value, the year before the war.

A lot of people who have been praising Mr. Harding to the skies will soon be cussing him as energetically when he appoints the other fellow.

Such a relief! At last Mr. Wilson can take a good comfortable snooze without having some critic hint that he is not earning his salary.

In these days we have correspondence school for about every industry except matrimony.

The modern world is developing a lot of speed, but it doesn't keep the track well ballasted.

Our principal notion of a good thing is to find a way to annex it.

HARD TIMES IN JAPAN

Tokyo. (By Mail to U. P.)—Judicial officers of Japan are appalled at the great number of bankruptcy cases which took place as a result of the great financial slump which struck the Empire in March and which lasted throughout the year. While figures have been compiled for the first ten months of 1920 only, it is shown that during that period no less than 1,420 bankruptcies took place, while, as the number increased during the end of the year, the total is likely to reach about 2,000.

Those Franklin County Stills

Since the announcement was made Thursday that three stills had been discovered by prohibition enforcement law agents in the hills of Franklin county, friends of Elmer Humes and B. F. Miller have been having a lot of sport at their expense because both own farms in Franklin county.

Mr. Humes recently traded his property at the corner of Harrison and Seventh streets to Dick Wilson for his Franklin county farm and Mr. Miller has owned a farm in Franklin county for some time.

The good-natured jokes were at high tide in the court house this morning when Mr. Humes and Mr. morning when Mr. Humes and Mr. inent members of the Main Street Christian church and this, in the opinion of the fellows who were leaders in the "kidding," made their chiding all the better.

This also was the occasion for Mr. Humes adding the comment that it was perfectly all right in their case since the members of his church were naturally inclined to be "wet" anyway.

"Pape's Diapepsin" at once ends Indigestion, Gases, Sourness, Acidity

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

When your meals don't fit and you feel uncomfortable, when you belch gases, acids or raise sour, undigested food. When you feel lumps of indigestion pain, heartburn or headache, from acidity, just eat a tablet of Pape's Diapepsin and the stomach distress is gone.

Millions of people know the magic of Pape's Diapepsin as an antacid. They know that indigestion and disordered stomach are so needless. The relief comes quickly, no disappointment, and they cost so little too.

Taking 25,000 Partners

WITHIN a few weeks the employees of the Standard Oil Company (Indiana) will be given an opportunity by the Company to buy shares in the capital stock of this organization under conditions which are distinctly favorable to the employee.

This stock is to be paid for from the employees savings running over a period of five years.

At the end of that time it is believed that the men actively engaged in conducting the business of this corporation will be possessed of a substantial interest in the business.

This is but one other step which the Company has taken to make mutual the interests of those who are engaged in its activities and those who by the investment of their capital have made these activities possible.

It is this spirit of fairness ever dominant in the minds of the management which has enabled the Standard Oil Company (Indiana) to gather an organization of enthusiastic, efficient, thoughtful and conscientious men and women who are devoting themselves to the betterment of that complete cycle of service which the Company is rendering the public.

To give you the service you are entitled to receive and which it is the Company's wish to render, every employee realizes that infinite pains must be taken with every step leading up to the transaction.

The Company believes that by making the active employees partners in the business, another step has been taken to achieve that perfection of service toward which we are striving.

Ethel Clayton at Princess

The promenade deck of the Cunard Liner Celtic furnished the location for the final scenes of "The Price of Possession," Ethel Clayton's latest Paramount picture, which will be shown at the Princess Theater for the last time today. Hugh Ford, the director is delighted with the results obtained.

Winifred Boggs' story of English and Australian life is the first Miss Clayton has done for Paramount in the East. The filming of the picture marks the return of Hugh Ford to directorial duties in America after six months in England where he produced the first two pictures made at the new London studio of Famous Players-Lasky British Producers, Ltd.

Among the well known screen favorites who appear with Miss Clayton in this picture are Rockcliffe Fellowes, leading man; Reginald Denny, Maude Turner Gordon, Clarence Heritage, George Backus, Mrs. Isabel West and Pearl Shepard.

The Cameron Saxophone quartet will appear on the program again today and tomorrow as a vaudeville specialty.

Shirley Mason at Mystic

"Abandon Hope, All Ye Who Enter Here!"

This warning, scribbled on cardboard and tacked on the gateway of an orphanage by one of the little inmates, starts the action in "Girl of My Heart," which William Fox is present at the Mystic Theatre today, with Shirley Mason as the star.

"Girl of My Heart," adapted from Frances Marion Mitchell's novel "Joan of Rainbow Springs," tells the story of Joan, a little waif who was ousted by the trustees of the orphanage for writing the foregoing sign, and sent to the guardianship of an old woman—whose constant abuse caused her to run away. How she accidentally met a young Southerner, whom she prevented from taking his own life because of ill-health her subsequent experiences as this man's adopted sister and with his old maid aunt; and her development from adopted sister into sweetheart—all this and more is told in what is described as an exceedingly dramatic story. Indian life figures largely in the tale.

Shirley Mason as little Joan is said to give a most charming impersonation. Others in the cast include Raymond McKee, as leading man; Martha Mattox, Al Fremont, Calvin Weller, Hooper Toler and Cecil Vanauker, Edward J. Le Saint staged the production.

Time to Face the Facts

"So much has been said against the use of patent medicines that I have had a strong prejudice against them. But after four years doctoring with six different doctors, without results, for acute indigestion, gastritis, constipation, appendicitis and other ailments, I was said to possess, I was encouraged to try Mayr's Wonderful Remedy, seeing what it had done for a friend similarly afflicted. I also was entirely relieved of my trouble, and am sure this medicine will do all and more than is claimed for it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At Druggists everywhere. Advertisement

The Height of Musical Joy

YOU get the height of musical joy when you hear a great living artist. But you get equal joy when you hear the same artist on the New Edison.

The proof of this is convincing, conclusive and concrete.

The NEW EDISON

"The Phonograph with a Soul"

Convincing—for Mr. Edison himself said in a recent interview: "The emotional effects and consequent benefits of music are well known. Through the agency of my new phonograph, I can produce the same effects as would result from the original music."

Conclusive—for you can score, on a Mood Change Chart, the effects of the New Edison's realism on you. Come in and listen to this test of realism.

Concrete—for we will show a big book of proof, that there is no difference between RE-CREATED music and the original music. This proof would be good in any court of law.

Druggist

Miss Alice Norris will be hostess for the members of the Coterie Monday afternoon at her home in North Harrison street.

The Tri Kappa sorority will be entertained at the home of Mrs. Roy E. Harrold, 327 East Ninth street, Monday evening. A large attendance of members is desired as new officers will be installed at this time.

Mrs. Joseph Buschmohle entertained the members of the Marian Social Circle yesterday afternoon at her home in North Julian street. She was assisted by Mrs. Ed Bishop. The hours were spent in playing cards.

Mahoning Council, No. 36, will have their regular meeting in the hall at 7:30 o'clock this evening. After the business meeting they will have a social. Each member is requested to bring a pie. The admittance to the social will be by the measurement of the foot.

The Ladies Aid Society of the St. Paul's M. E. church will meet Tuesday afternoon at the home of Mrs. Lottie Callaghan, 421 North Harrison street. The assisting hostesses will be Mrs. Horatio Havens and Mrs. Jessie Gray.

The Junior League of St. Paul's M. E. church was entertained by the superintendent, Mrs. J. F. Miller, in the parlors of the church, Thursday afternoon. Forty members were present and enjoyed the time with games and guessing contests. Shamrock cookies and ice cream were served as refreshments.

The regular monthly meeting of the D. A. R. was held yesterday afternoon at the home of Mrs. Willard Amos in North Perkins street. The program given was in keeping with St. Patrick's day. Mrs. Mary Jones gave a very interesting paper on "The Landing of the Pilgrim Fathers" and special music was furnished by Miss Florene Groenier, Miss Olive Buell, Miss Rowena Kennedy and Miss Brenda Kinsinger. Following the program a short business session was held during which many important matters were discussed. Light refreshments were served during the social hour. The assisting hostesses were Mrs. Alvan Moor, Mrs. Charles Hugo, Mrs. Horatio Havens and Mrs. Alva Eakins.

SOLDIERS BODY TO BE RETURNED HERE

Continued from Page One
removal of bodies, is as follows:
Work has just begun on the removal of the dead from the great American cemetery at Romagne, France, where lie more than 22,000 bodies of those who gave their lives in the Aronne. The shipment of the bodies will be expedited as far as possible, and will be delayed only by adverse weather conditions.
Latest figures show that in all there are 75,882 dead overseas, of whom 13,616 have been received. Requests have been received to permit 19,861 bodies to rest permanently overseas, but this number is changing all the time. Definite instructions have been received regarding 50,040 bodies, and there are 25,842 dead whose final resting place is not yet fully decided.
Of all the dead, only 1,240 remain unidentified. Of the whole number about 40 per cent, it is estimated, will lie permanently overseas, and 60 percent will be brought home at the request of relatives.

How Glasses Pre-

serve One's Youth-

ful Appearance

It is often urged that

glasses will make the wearer

look old, but, as a matter of

fact, wearing glasses is one

of the best preservers of a

youthful appearance.

This is because prolonged

eyestrain causes wrinkles

and "crow's feet" to appear

prematurely and gives the

countenance a strained, tir-

ed, drawn cross look which

is far more to be avoided

from a point of view of ap-

pearance, than from any

real or fancied disfigure-

ment caused by glasses.

We use particular care in

fitting glasses and in the se-

lection of mountings most

becoming to each person's

individual style of beauty.

GUNMAN KILLED BY POLICE

"Two-Gun" Stranger Fatally Shot in Battle at Chicago

(By United Press)
Chicago, Ill., Mar. 18.—An unidentified man was killed and a detective was wounded today in a three hour gun fight between the man and fifty police officials here today.
The battle started when two detectives stopped the "two-gun" stranger standing on a down town street corner at 4 a. m. When surrounded by the police, he resisted and shot several times until he was fatally wounded by the policemen.

UNION PACKERS FOR STRIKE

Chicago, Ill., March 18.—Union packers employes have voted a strike if the demands are not met, according to union leaders today. The vote so far tabulated is 38,792 for and 387 against the strike.

A London railroad terminal in which accidents have happened because trains could not be stopped in time has been equipped with hydraulic buffers.

"COMPLETELY DISCOURAGED"

Is the feeling and plaint of women who are "run-down" so low that work drags, head aches, back aches, dragging down feelings, dizzy, pale, weak, "everything goes wrong." See what Dr. Pierce's Favorite Prescription has done for more than a million women in the last fifty years. What it has done for others it can do for you.
Gary, Ind.:—A couple of years ago I began suffering with women's weakness. I had severe backaches, became very weak and nervous, could not eat or sleep well. I doctored but did not get better under the treatment. At last I began taking the "Favorite Prescription" and it made a well woman of me and in less than six months I was stronger than I ever have been.—MRS. SADIE WEIKEL, 837 Penn St.

RAIL LABOR'S BILL OF RIGHTS PRESENTED

Statement by B. M. Jewell Opens Fight Against Abrogation of The National Agreement

BEFORE RAIL LABOR BOARD

(By United Press)
Chicago, Ill., Mar. 18.—Railroad labor's bill of rights was presented to the federal railroad labor board here today by B. M. Jewell, president of the railway department of the American Federation of Labor.
The statement by Jewell opened the fight of the railroad union against a petition by the railroad managers who asked abrogation of the national agreement. Jewell's statement expressed the concise purpose as to the basis of a national agreement which he said would be satisfactory to labor.
The statement presented an answer to the railroad petition for abrogation of the national agreement. Jewell said the reason of forming the bill of rights was to show them how easy it would have been for the employes and the railroads to get together on the national agreement had the railroads shown a sincere desire to meet those elected and instructed by the railroad employes to adjust matters of the national agreement.

BATTLE LIQUOR RUNNERS

El Paso, Texas, Mar. 18.—Three American soldiers and two Mexican bootleggers were wounded early today in a battle between American soldiers, immigration officers, and liquor runners, when four Mexican bootleggers were attempting to cross the Rio Grande into this country, it was announced at the headquarters of the 48th Infantry today.

LOVETT MURDER TO BE INVESTIGATED

Continued from Page One
man \$5 as part payment for the use of the machine. Earlier in the evening he had arranged with Lovett to take a trip with him. At about 11 o'clock that night he drove to Lovett's house. He was in such a hurry that he did not stop his engine. Lovett ran out of the house and jumped into the machine without putting on his coat, after telling his parents that he was going to visit a sick sister at Albion. Decker and Lovett drove toward Warsaw.

Between 12 and 1 o'clock they were seen in the machine headed toward that city. No one was with them and Decker's story that they picked up a third person in Elkhart will be disproved, the authorities say. From Warsaw they drove to Atwood. Fred Decker lives on a farm a mile or two from here, and was near that farm at about 3 o'clock in the morning when an automobile, supposed to contain Lovett and Decker, was seen on the outskirts of this place. The persons who saw the machine can not identify the two men, but the men answered to the description afterward given of Decker and Lovett.

Bordering the Fred Decker farm is a summer cabin. It stands less than fifteen feet from the waters of the Tippecanoe river. In the cottage are three rooms, two of which contain beds. In the combined living and dining room are a stove, a table, some chairs, a cupboard and an old-fashioned sofa. The contention of the officers is that Decker drove close to the cabin with the machine and told Lovett that they would sleep there until daylight and then go to the home of his brother and have breakfast. Early Saturday morning Fred Decker found his brother Virgil in his house. He was not asked when he came in nor was he questioned on any point. An automobile was stalled in the road several hundred yards west of Decker's home.

AMERICA
Electric Cleaner
WORTHY OF ITS NAME

The AMERICA removes all manner of refuse from the floor coverings — strings, sewing room litter, ravelings, lint, etc.
The nozzle brush is operated by the carrier wheels as the cleaner is moved about— NOT BY THE MOTOR.
Absolutely trouble-proof. Does not wear out carpet; adjusting screw for raising or lowering nozzle to proper distance for different nap carpets.
For those desiring to pay Cash we will allow a discount of 5 per cent.
